COOL NEW SPACES TO EXPLORE AT re:publica TEN!

Networking Area

The Networking Area brings EVERYBODY together. Share your ideas and relax with like-minded folks while communities gather in meetups and visitors get inspired by lightning talks and discussions. Check the programme for topics and schedules – or just announce your own meetups in the blue and yellow areas. Let's meetup!

labore:tory

re:publica is expanding! For the first time the »labore:tory«, located in the Kühlhaus of STATION Berlin, is part of the re:publica experience. The space focuses on the interplay between tech and culture through Virtual and Augmented Reality technologies. Explore its Musicday on Day 1, the Immersive Arts on Day 2, and the #FASHIONTECH Berlin conference on Day 3.
